TECHNICAL SKILLS

Programming Languages

Python · TypeScript · JavaScript · Java · SQL · HTML/CSS · VBA

AI / Machine Learning

PyTorch · TensorFlow · scikit-learn · Hugging Face · OpenCV · XGBoost/LightGBM · RAG · LLM Agents · Multi-Agent Orchestration · Prompt Engineering · Explainable AI (GradCAM) · AI-Assisted Development (Vibe Coding)

Frameworks & Libraries

Next.js · React · Spring Boot · FastAPI · Streamlit · Pydantic · Tailwind CSS

Data & Databases

PostgreSQL · MongoDB · Pandas/Polars · NumPy · Plotly · Matplotlib/Seaborn

Cloud & DevOps

AWS (S3, CloudFront, Lambda, CDK, Route 53) · Docker · GitHub Actions · Playwright · Makefile

Tools & Platforms

Git (GitHub, Bitbucket) · VS Code · IntelliJ IDEA · SAP FI-CO / BPC · Postman

PROFILE

Data Scientist & AI Engineer bridging business strategy and cutting-edge AI. Five years at Otto Group built deep expertise in corporate data flows, financial systems, and cross-functional stakeholder communication. Now orchestrating end-to-end AI solutions across multiple layers — from multi-agent LLM systems and automated news-crawler pipelines to deep learning models for computer vision, deployed on modern cloud infrastructure (AWS CDK). Equally comfortable with AI-assisted rapid prototyping using the latest tools and navigating legacy enterprise systems. Pursuing an M.Sc. in Data Science & AI at FH Wedel while actively shipping production code.

EXPERIENCE

AI & Data Science Working Student
2025-06 — 2025-12
Datalogue · Hamburg

20h/week on a B2B Sales Lead project from concept to MVP — reduced manual sales research workload by 53%.

- Co-designed the system architecture combining a multi-agent app with a generic news-crawler pipeline for company & contact research; defined data flow, validation points, and human-in-the-loop feedback loops
- Built a Streamlit MVP running multi-LLM agents for company targeting, contact discovery, insight generation, and automated outreach email drafting with domain/contact verification
- Implemented a generic crawler pipeline to automatically crawl news sites, extract content, and analyze articles with LLMs to surface actionable company insights

Junior Entrepreneur / Mentee
2024-11 — 2025-01
Future Founder Program · Hamburg

- Entrepreneurial program with workshops, coaching sessions, and pitch events to develop a startup mindset
- Built an AI-powered regulatory compliance tool for biotech within a team of four, streamlining processes to accelerate life-saving products to market

Trainee Full Stack Java Development
2024-01 — 2024-04
neuefische GmbH · Hamburg

- Intensive full-stack bootcamp: Java (Spring Boot, OOP, MongoDB, OAuth, Docker), TypeScript, and advanced React
- Built and deployed MyRecipes — an AI-powered web app suggesting recipes from available ingredients using Java, REST APIs, MongoDB, and TDD

Trainee Data Science & AI
2022-11 — 2023-02
neuefische GmbH · Hamburg

- Intensive data science bootcamp covering statistics, machine learning, data visualization, and big data analysis
- Capstone project: multi-objective recommender system using Python, SQL, GCP, Word2Vec, and Co-Visitation Matrix

Financial Accountant
2017-04 — 2022-07
Otto Group · Hamburg

- Led robotics initiatives: automated booking of vacation accruals and interest schedules via UiPath, optimized booking processes and analytical workflows using Excel & SAP
- Independently managed financial accounting for multiple Otto Group subsidiaries (shopping24, OG data.works, Lieferfactory, MTI) using SAP FI-CO
- Prepared monthly, quarterly & annual financial statements (HGB & IFRS); managed consolidation reporting in SAP BPC; main contact for external auditors

Intern in Group Financial Reporting
2016-11 — 2017-04
Otto Group · Hamburg

- Supported IFRS implementation, options evaluation & financial statement review; gained knowledge of group consolidation working with consulting firms

KEY STRENGTHS

- Multi-layer orchestration — bridging AI, business logic, and infrastructure
- Strong business understanding from 5 years in corporate finance
- AI-assisted rapid development with latest tools & frameworks
- Comfortable with both modern AI stacks and legacy enterprise systems
- Strategic & entrepreneurial thinking
- Cross-functional collaboration and stakeholder communication

Au-Pair
2015-09 — 2016-11
Private German Family · Hamburg

- Relocated to Germany; achieved German language proficiency and cultural integration while supporting a family of four

Business Relations Specialist
2014-04 — 2015-08
alBaraka Bank Syria s.a. · Damascus

- Delivered customer services to private and corporate clients; processed document collections, letters of credit, and managed VIP client relationships

EDUCATION

M.Sc. Data Science & Artificial Intelligence
2024-04 — Present
FH Wedel, Wedel, Germany

- Deep Learning project: Urban Farming Automated Plant Health Monitoring (ViT/CNNs, Explainable AI, IoT concepts)
- Coursework: Deep Learning, Econometrics, Symbolic AI, Digital Transformation, Agile PM & Change Management

Professional Certification Financial Accounting (Bilanzbuchhalter)
2018 — 2020
GFS Steuerfachschule

B.Sc. Business Administration, Financial Management & Banking
2009 — 2013
Yarmouk Private University, Damascus, Syria

- Thesis: Testing the Capital Asset Pricing Model (CAPM) in the Syrian Stock Market
