PROFILE

Data Scientist and AI Engineer working at the intersection of business and modern AI. Over five years at Otto Group built deep fluency in corporate data flows, financial systems, and cross-functional stakeholder work. Today I orchestrate end-to-end AI solutions across multiple layers — from multi-agent LLM systems and automated news-crawler pipelines to deep-learning models for computer vision. I built and deploy this portfolio on AWS CDK. Comfortable navigating modern AI-assisted development with the latest tools and the legacy enterprise systems many companies still run on. Currently writing my M.Sc. thesis in Data Science & AI at FH Wedel on Document Intelligence and Knowledge Graphs, while shipping production code on the side.

EXPERIENCE

AI & Data Science Working Student
2025-06 — 2025-12
Datalogue · Hamburg

20h/week on a B2B Sales Lead project from concept to MVP — reduced manual sales research workload by ~53%.

- Designed multi-agent architecture: LLM agents for company targeting, contact discovery, insight generation, and outreach drafting with human-in-the-loop feedback
- Built generic news-crawler pipeline with PostgreSQL 3NF + vector search; reduced sequential latency ~70× via async fan-out

Junior Entrepreneur / Mentee
2024-11 — 2025-01
Future Founder Program · Hamburg

- Entrepreneurial program with workshops, coaching sessions, and pitch events to develop a startup mindset
- Built an AI-powered regulatory compliance tool for biotech within a team of four, streamlining processes to accelerate life-saving products to market

Trainee Full Stack Java Development
2024-01 — 2024-04
neuefische GmbH · Hamburg

- Intensive full-stack bootcamp: Java (Spring Boot, OOP, MongoDB, OAuth, Docker), TypeScript, and advanced React
- Built and deployed MyRecipes — an AI-powered web app suggesting recipes from available ingredients using Java, REST APIs, MongoDB, and TDD

Trainee Data Science & AI
2022-11 — 2023-02
neuefische GmbH · Hamburg

- Intensive data science bootcamp covering statistics, machine learning, data visualization, and big data analysis
- Capstone project: multi-objective recommender system using Python, SQL, GCP, Word2Vec, and Co-Visitation Matrix

Financial Accountant
2017-04 — 2022-07
Otto Group · Hamburg

- Led robotics initiatives: automated booking of vacation accruals and interest schedules via UiPath, optimized booking processes and analytical workflows using Excel & SAP
- Independently managed financial accounting for multiple Otto Group subsidiaries using SAP FI-CO
- Prepared monthly, quarterly & annual financial statements (HGB & IFRS); managed consolidation reporting in SAP BPC; main contact for external auditors

Intern in Group Financial Reporting
2016-11 — 2017-04
Otto Group · Hamburg

- Supported IFRS implementation, options evaluation & financial statement review; gained knowledge of group consolidation working with consulting firms

EDUCATION

M.Sc. Data Science & Artificial Intelligence 2024-04 — Present

FH Wedel, Wedel, Germany

- Thesis in progress: Document Intelligence and Knowledge Graph Construction — OCR-free extraction with Donut and LayoutLMv3, knowledge graph construction, GraphRAG reasoning with local LLMs, zero cloud dependency
- Deep Learning project: Urban Farming Plant Health — hierarchical 3-stage pipeline across ViT/CNN architectures with Grad-CAM and Attention Rollout explainability
- Coursework: Deep Learning, Computer Vision, Machine Learning, Symbolic AI, Econometrics, Empirical Research Methods, Category Management, E-Commerce Business Models, Digital Transformation, Strategic Management, Agile PM & Change Management, Data Engineering, Unix & Shell Programming

Professional Certification Financial Accounting (Bilanzbuchhalter) 2018 — 2020

GFS Steuerfachschule

B.Sc. Business Administration, Financial Management & Banking 2009 — 2013

Yarmouk Private University, Damascus, Syria

- Thesis: Testing the Capital Asset Pricing Model (CAPM) in the Syrian Stock Market

TECHNICAL SKILLS

Programming Languages

Python | TypeScript | JavaScript | Java | SQL | VBA

AI / Machine Learning

PyTorch | Hugging Face | scikit-learn | OpenAI API | LangChain | Agno (Agents) | LLM Agents | RAG | Prompt Engineering | Vision Transformers | CNNs | Grad-CAM | Word2Vec

Frameworks

Next.js | React | FastAPI | Streamlit | Spring Boot | Pydantic | SQLAlchemy

Cloud & DevOps

AWS (CDK, Lambda, S3, CloudFront) | GCP | Docker | GitHub Actions | Playwright

Databases

PostgreSQL (3NF) | MongoDB | Vector DB (FAISS, Pinecone) | SAP FI-CO / BPC

Tools

Git | Jupyter | Pandas / Polars / NumPy | BeautifulSoup | Tailwind CSS | UiPath (RPA)

KEY STRENGTHS

- End-to-end AI delivery
- Modern AI & legacy systems
- Cross-functional collaboration
- AI × business × infrastructure
- Strategic & entrepreneurial thinking
- Multilingual (DE / EN / AR)

LANGUAGES

German C2 · **English** Full professional · **Arabic** Native · **Spanish** toward B1 · **French** Elementary

HOBBIES & INTERESTS

Music Lover:
Guitar / Dabbles in piano when life allows

Pushing Limits:
Marathon runner / Bouldering / Swimming

Passion for cooking & sailing
