PROFILE

Data Scientist & AI Engineer bridging business strategy and cutting-edge AI. Five years at Otto Group built deep expertise in corporate data flows, financial systems, and cross-functional stakeholder communication. Now orchestrating end-to-end AI solutions across multiple layers — from multi-agent LLM systems and automated news-crawler pipelines to deep learning models for computer vision, deployed on modern cloud infrastructure (AWS CDK). Equally comfortable with AI-assisted rapid prototyping using the latest tools and navigating legacy enterprise systems. Pursuing an M.Sc. in Data Science & AI at FH Wedel while actively shipping production code.
